National Focal Points Training Seminars

Veterinary Product-AMR

- **Main objectives of the 4th cycle Seminars :**
 - Quality of veterinary drugs - how to ensure the quality of veterinary medicinal product (VMP)
 - Registration/authorisation of Veterinary Medicinal Products-VICH and VICH Outreach Forum
 - **Antimicrobial use and resistance (AMR)**
 - Antiparasitics and challenges

National Focal Points Training Seminars

Veterinary Product-AMR

- Based on the latest Resolution No. 38, adopted by 85th OIE World Assembly in May 2017:
 - The OIE continue to organise training seminars at regional level for OIE National Focal Points for Veterinary Products (**5th cycle**), to improve awareness of its standards, guidelines and recommendations and the systems for improving the collection of data on the antimicrobial agents used in animals.

- *Wishing to all of you a fruitful meeting and pleasant time*
- *To be continued in the 5th Cycle*

WORLD ORGANISATION FOR ANIMAL HEALTH
Protecting animals, preserving our future

Thank you for your attention
